

Open letter to all New Zealand politicians' health officials, the press and others.

6th September 2021

A previous letter to you dd. 26 February, 2021 began with this;

STOP THE GENOCIDE

The proposed vaccination of the entire New Zealand population for Covid-19 has now begun alongside many other countries around the world. Despite over-arching global censorship there is considerable concern as to the safety, efficacy and legality of these artificial, untested mRNA gene-editing eugenicist agents posing as vaccines against a virus that has never been shown to exist.

Many auto-replies, but no substantive replies to that letter or to other previous ones re. COVID, have been provided. In a matter of such survival significance, this is an abrogation of democracy.

Deagal.com, the USA military intelligence advisory service provides world population projections out to 2025. [This analysis of the Deagal projections by Jeremy James](#) indicates a global population reduction of 585 million people by 2025 (1.6M for NZ and 10M for Australia), and concludes.

"Unless the inhabitants of the countries listed in Tables A and B awaken to the fact that they are now in a medical tyranny and that their own governments – which have pledged to protect them – are part of that tyranny, they will be destroyed. It is really that simple".

Djab = Death jab = Pfizer / Moderna / AstraZeneca / Johnson and Johnson poisonous, gene-editing medical devices falsely and criminally advanced as "vaccines".

The above links clearly demonstrate and prove that COVID is genocide, a Globalist eugenics psyop against humanity, decades and centuries in the planning. Through unbridled criminality, the powerful elite have robbed humanity of the fruits of its labours, perverted its development and ruined the natural environment. It is now feverishly engaged in its WW3 endgame of global genocide and tyranny in the vain hope that the rising tide of opposition to its evil agenda can be subsumed. It will not be. The Globalist subversion of all levels of human civilization is now virtually complete such that insurance, banking, governments, courts, media, science, health and education are all under Globalist control. It is a Satanic, Luciferian agenda that wants all for itself and the destruction of all others, by depopulation and enslavement of the remnant in a Transhumanist, Dystopian future. No thanks. Like most others, the New Zealand Government is under the thumb of the Luciferian Globalists. The current leadership has clear Socialist/ Communist leanings and appears hell-bent on re-ordering this country according to that ideology. Our forebears fought and died in defiance of such tyranny.

By 07 September 21, Pfizer is obliged to reveal the contents of its 'Death-jab' which is not a vaccine but a cocktail of multiple poisonous and gene-editing technologies designed for global depopulation and tyranny. In complicity with this Globalist agenda, governments around the world are pushing this 'klotshot' via propaganda and coercion onto an unsuspecting populace without full disclosure and informed consent. This is in breach of the Nuremburg Code. No greater evil has ever been done to humanity than this.

There are no grounds for 'plausible deniability' by government officials who aid and abet this evil agenda. Despite massive Bigtech censorship, official fake science and media complicity, the true science of the **Djab** is now well understood and in process of public apprehension. The populace is awakening. Politicians, health-care officials and media personalities who take a fake jab in deception of the public are guilty of treason and unfit for public service. They have failed in their duty of care to the electorate. Why is it that not one of New Zealand's 120 members of parliament has called out this genocidal program, despite many letters from the public to do so and an avalanche of international evidence? Was it 'the sit-down talk' perhaps? It would seem that few have learnt the lessons of history; in a Bolshevik coup the 'useful idiots' (politicians and press) are the first for the chop, followed by the 'useless eaters'.

Link 3 above provides Pfizer's description of the destructive nature of its **Djab**. By their own admission, Pfizer have turned the 'vaxxed' into modern day lepers. All of the measures mandated for COVID protection; masks, swabs, PCR testing, lockdowns, failure to satisfy Koch's Postulates, the 'klotshot' itself, lack of autopsies, all defy traditional science in managing an epidemic. What gives? Globalist complicit governments around the world already know the answers, so why bother with virus isolation and autopsies? Honest science and solutions are not part of the agenda.

The public has been so terrorized by the unrelenting fearmongering of falsified science, statistics and medicine that it gladly steps up for voluntary euthanasia, totally misinformed and uniformed, but trusting nonetheless, as planned. This inordinate fear is likened to that of a circling great white shark, but when in reality it is only a great whitebait. It is estimated that there are ca.380Trillion viruses/ exosomes in the Virome, the web of life, so why the fuss over another one? The hyped high transmissivity of Delta is a red herring since its lethality is less than that of the flu. The elimination strategy followed by New Zealand was always going to be an impossible dream, especially since Delta and all the other variants are caused by the **Djab** itself as a known consequence of vaccination during a pandemic that causes variant breakthrough. This is compounded by the mRNA technology that hijacks the immune system and disables its normal broad spectrum protection capability. This is confirmed by the ensuing wave of COVID death and disability observed in high 'vaccination' rate

countries such as Israel and Ireland. The **Djab** is the principle cause of the disease. And the choice, 'The jab or your job' is a no-brainer; you can't spend your paycheck when you are dead.

The question that still remains to be answered is this; why do health authorities around the world ignore, ban or pretend that there are no alternative low cost remedies for this mild influenza and refuse to encourage their use? We have also always known the answer to that question; Bill Gates, Anthony Fauci, the WHO, WEF and BigPharma who planned this scamdemic for profit. Cui Bono.

It has been confirmed that the **Djab** poison cocktail includes gene-editing artificial mRNA, Graphene Oxide, PEG, Luciferase, male and female sterility and miscarriage agents, prions (CJD - mad cow disease) and deadly parasites. The formulation is constantly being changed. It does not contain attenuated or dead, isolated Corona virus that is the basis of a real vaccination, but which it is not. It provides no protection for viral lung infection and instead causes blood clotting and multiple organ failure, notably liver, heart and brain diseases. The poisonous, magnetic and highly conductive Graphene Oxide interfaces with the 5G WiFi spectrum for total remote monitoring and control, and death at the flick of a switch. Add to that the irreversible effect of the gene-editing mRNA which renders the 'vaxxed' the legal property of the patent-holder. The **Djab** is indeed a klotshot. Who in their right minds would want it?

The malicious denigration of those courageous enough to call out this genocidal program for what it is, is a disgrace. For every 'Conspiracy Theorist' there is a 'Scorn-piracy Terrorist' (MSM) that has bought the lie and accepted the bribe. The primary role of the media is to hold government to account to reign in the abuse of power and prevent tyranny. They have failed miserably in this task, shame on them. It has been said, "Noah was a conspiracy theorist, until it rained". Well, it's raining now. Wise people know that the Globalist M.O. is 'death by a thousand cuts' and speak out. We are currently around the 600cut mark. Fast or slow, dead is still dead. Resist and persist, comply and die.

Personally, I maintain good health by good choices and don't take unnecessary drugs or vaccines. If there was a genuine COVID vaccine offered to the public by the New Zealand Government, but which currently there is not, and if I was convinced that COVID was a serious disease, then I would take the vaxx. The New Zealand Government's coercion of its citizens to take an horrendous toxic cocktail by injection, falsely presented as a vaccine, is in gross violation of all norms of conduct and a crime against humanity, namely GENOCIDE.

Once again, I call upon the NZ Government to 'STOP THE GENOCIDE', by;

1. Immediately halting all further inoculation of the public with the **Djab**.
2. Banning the requirements for masks, social distancing, hand sanitising and testing.
3. Banning contact tracing.
4. Lifting all lockdowns and restrictions on movement and assembly. Allow life to return to normal.
5. Promote the use of immune system building supplements, treatments and methods.
6. Urgently coordinate a national policy for counteracting the lethal effects of the **Djab** and the high risk of 'Vaxxidents'.
7. Dismiss all fraudulent health advisors that have misled and harmed the New Zealand citizenry. Replace them with honest doctors with no allegiance to GlobalBigPharma.
8. Promote an international investigation of the COVID crime against humanity.
9. Announce an emergency national election, to elect trustworthy political representatives.
10. Reinstate an independent, honest media.

Even though the Globalists have raped humanity and pillaged the Earth, their untold wealth is not enough for them. Their fractional reserve private banking system counterfeits and debases fiat currency. It lends \$9 of credit for every \$1 deposited and demands repayment in cash whilst charging interest on the sum. This contradicts the 'Equal Consideration' basis of contract law. Fractional reserve mortgage lending is fraud. Add to this, taxation from all sources at 80% of every dollar earned and it is not difficult to see why humanity has been reduced to such impoverishment as is now globally evident. Without all this grand larceny humanity would flourish. In the middle ages, prior to the Bank of England and its Globalist spawn, humanity flourished on ~100 days of labour per year. The rest of the time was free and naturally led to the voluntary labour construction of the great Gothic cathedrals of Europe, in celebration of the Divine. Such enduring grandeur achieved without the benefit of today's technology is a testament to the greatness of the human spirit; the Love that we are, naturally driven to its fullest expression. Thus, it is time for change, to set the human spirit free once more, to throw off the globalist imprisonment and start afresh with a return to national banking, integrative medicine, real science and regenerative agriculture. 5D before 5G. So may it be.

A friend just reminded me of the need for compassion for those in positions of authority and the terrible power that they wield. To err is human, but to forgive is Divine. Over-shadowed by unrestrained power in pursuit of an evil agenda, it is an almost impossible ask of one human being to resist the temptation to comply. Only a Christ is able to accomplish this. The weakness of complicity must be matched by a greater compassion and without which there is no hope of correction. My heart goes out to Jacinda and others in such an awful predicament, but that is not to excuse wrongful action, but to provide a way forward from it. I would not wish this on my worst enemy. May God have mercy?
