

Have you heard of the "illuminate new world order" card game? It was released in 1995, yet the cards seemingly predict the future..... Or more likely, they're mocking us by showing people their plans. 9/11, princess DI, Clinton sex scandal, and literally every national news story has a card, all printed years before they happened.

Some new cards were released in 2015, mostly "predicting" covid.....

Disaster! This is an Attack to Destroy any Place. It does not require an action. Its Power is 14.

This is *not* an Instant attack; other groups can interfere normally.

If the attack succeeds, the target is *Devastated*. This attack cannot actually destroy the target.

Center for Disease Control

As its action, the CDC can supply *Relief* to one *Devastated* location each turn. If the CDC makes a *direct* attack to destroy a Place, it can use biological warfare and get a +15 (!!) to its attack. If the attack *fails*, the CDC is automatically destroyed by the owner of the Place that it attacked.

GOAL

Population Reduction

"Too many people making too many problems, and

not enough love to go 'round . . ."

– Genesis

Destruction of up to three *Huge* Places counts as two groups each toward your Basic Goal (or as two destroyed groups each for Cthulhu), but you may not count any other destroyed groups toward that goal. (And remember, no matter what, you can only count three cards double toward your Basic Goal.)

However, if you can destroy five *Huge* Places without recourse to World War III, you may claim victory on that basis alone.

If you've been watching the comments on social media, the message in that last card should look very familiar.

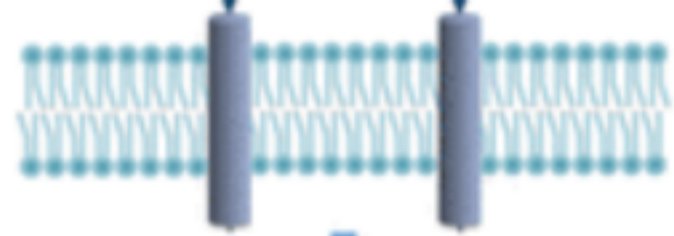

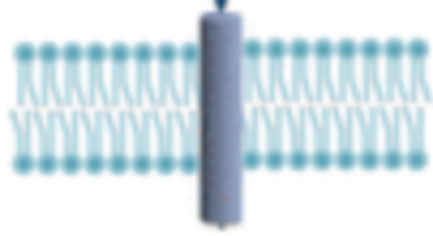

There's almost 200 cards so I could go on forever, I purposely included links for you to

use.

The Real story that I want to show you, are the cards that literally represent nanobots injections, a.k.a. "covid vaccines". There's a hundred different ways to draw them, but they all follow the same basic shape.

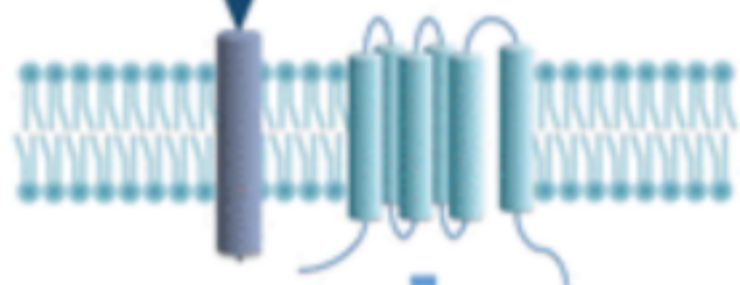

A circle with a bunch of Y's stuck to it, like this.

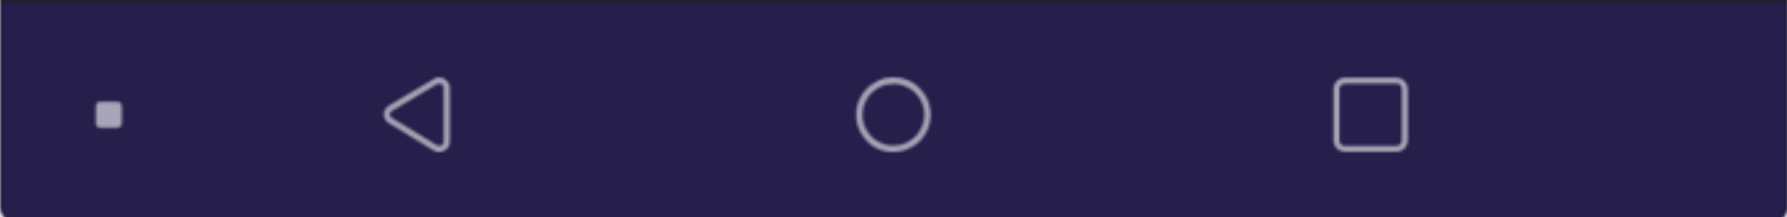

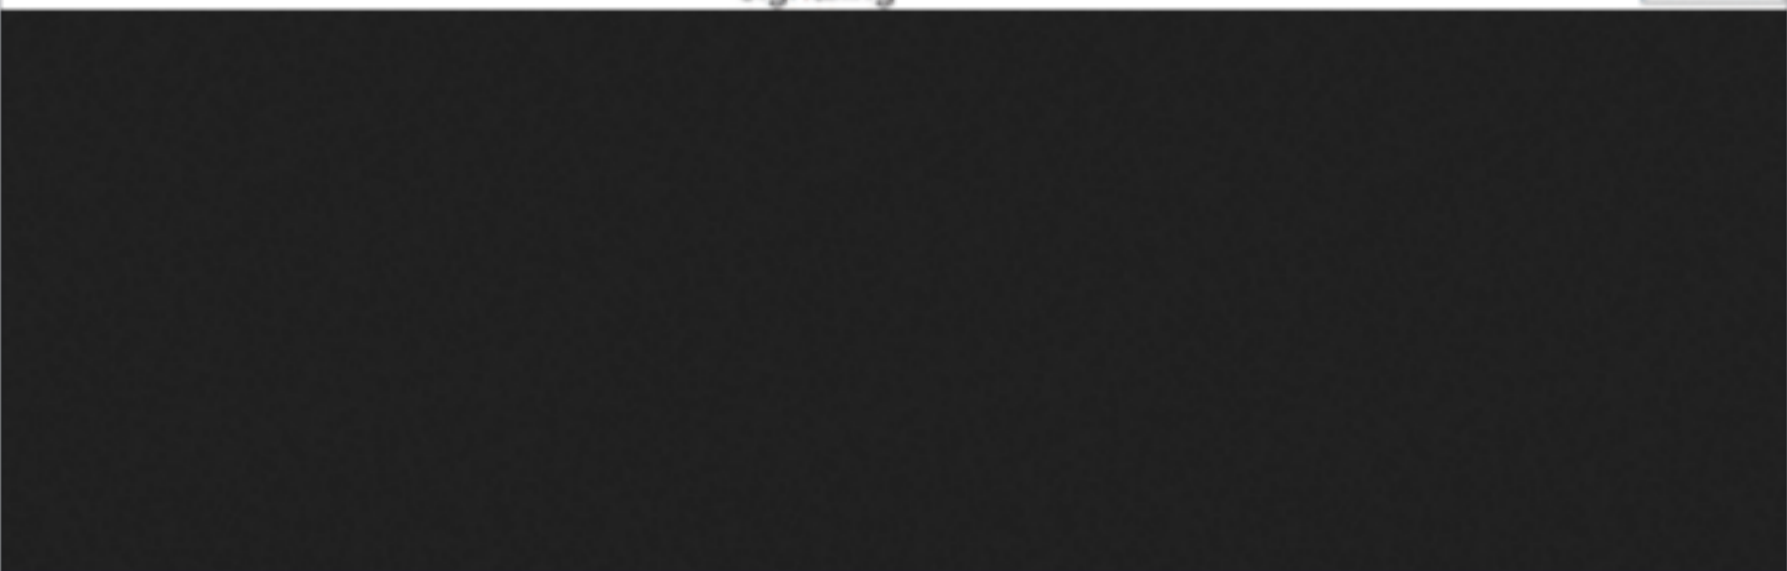

Intracellular signaling

Coronavirus infection: Basics

Different components of the coronavirus SARS-CoV-2 are involved in infection and can trigger the human immune system. Vaccines use these

components to mimic infection and teach the immune system to recognize and defend against SARS-CoV-2.

Spike protein or S-protein

This is the surface protein that binds to human cells, allowing the virus to enter.

RNA

The genes for SARS-CoV-2 are encoded as RNA.

Spike protein gene

Among those genes are the instructions for making the spike protein.

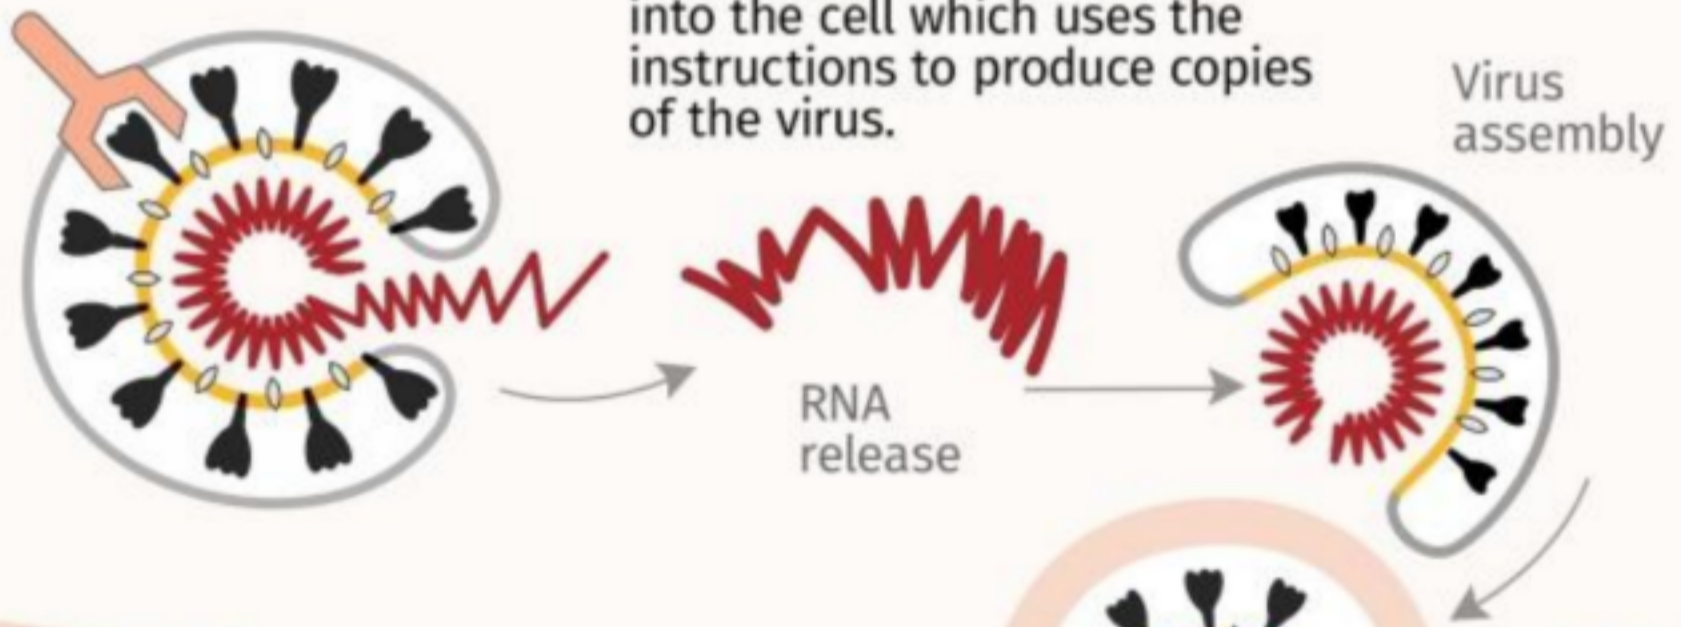

1 ACE 2 Receptor

Infection begins when a spike protein binds to an ACE 2 receptor on the surface of a human cell, allowing it to pass into the cell.

2 Virus replication

The virus releases its RNA into the cell which uses the instructions to produce copies of the virus.

3 Virus released

Copies of the virus are released from the infected cell.

CBC NEWS

Yes, I know the virus and the vaccines look identical. I'll share that story later.

Blivit

The drawings were good, but we had a heck of a time actually building it . . .

The action of the Blivit can be used to cancel the action of any other Resource. If a Resource does not have Action tokens, the Blivit cannot affect it.

The owner of the Blivit is immune to the Nuclear Power Companies.

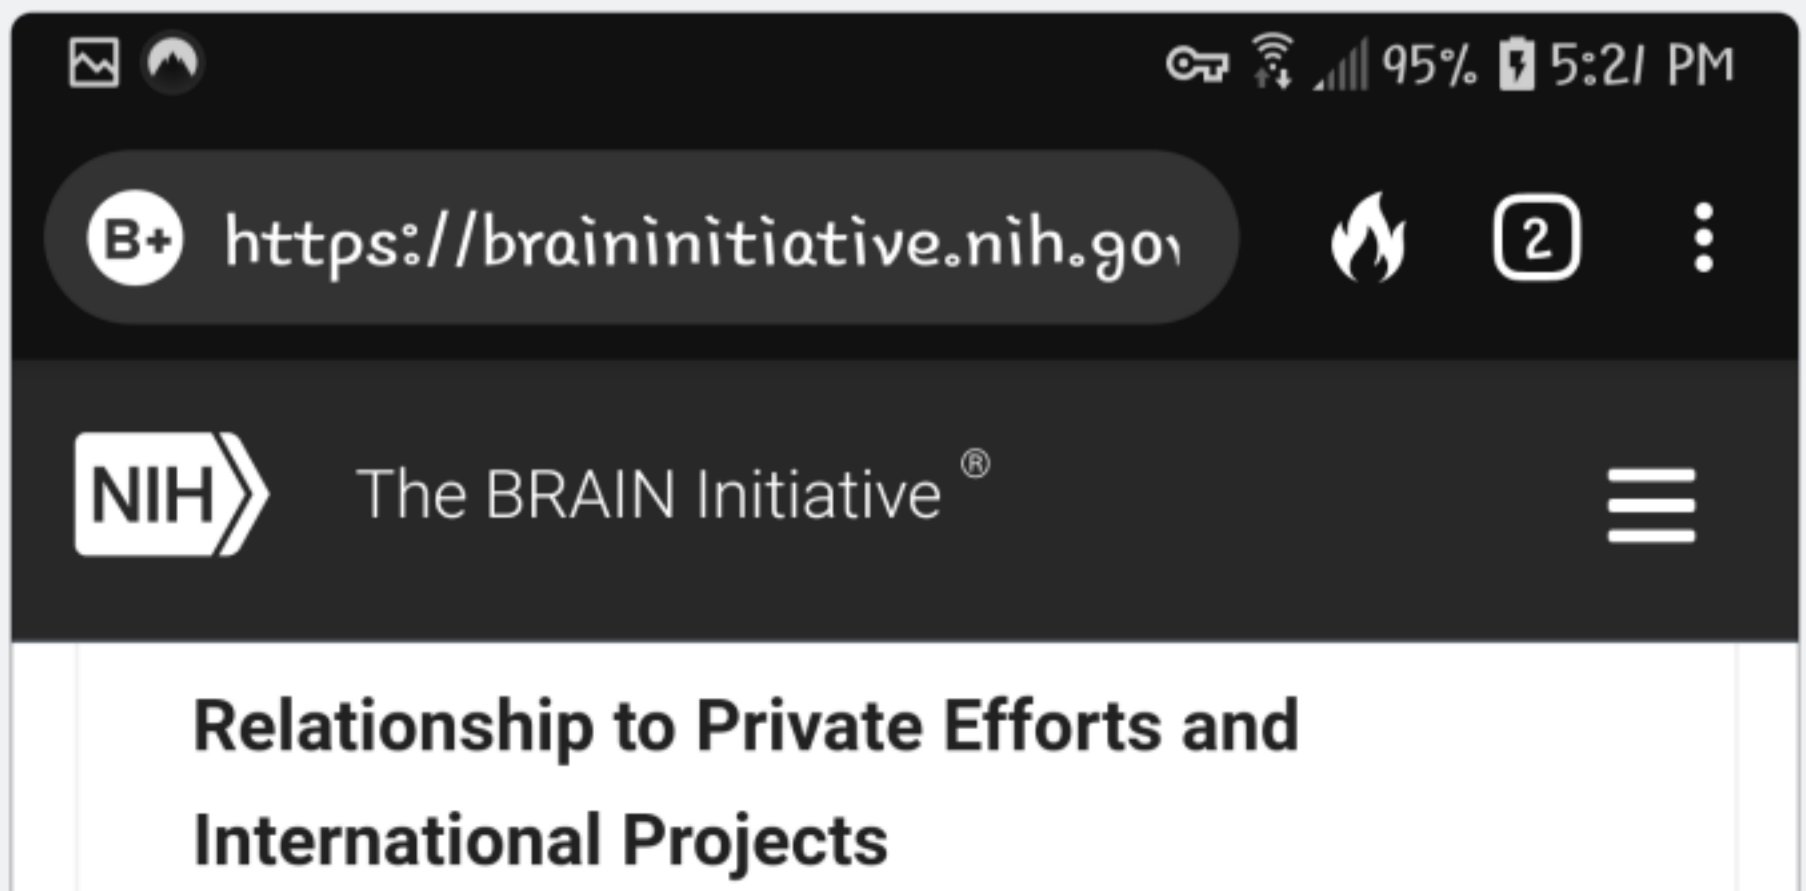

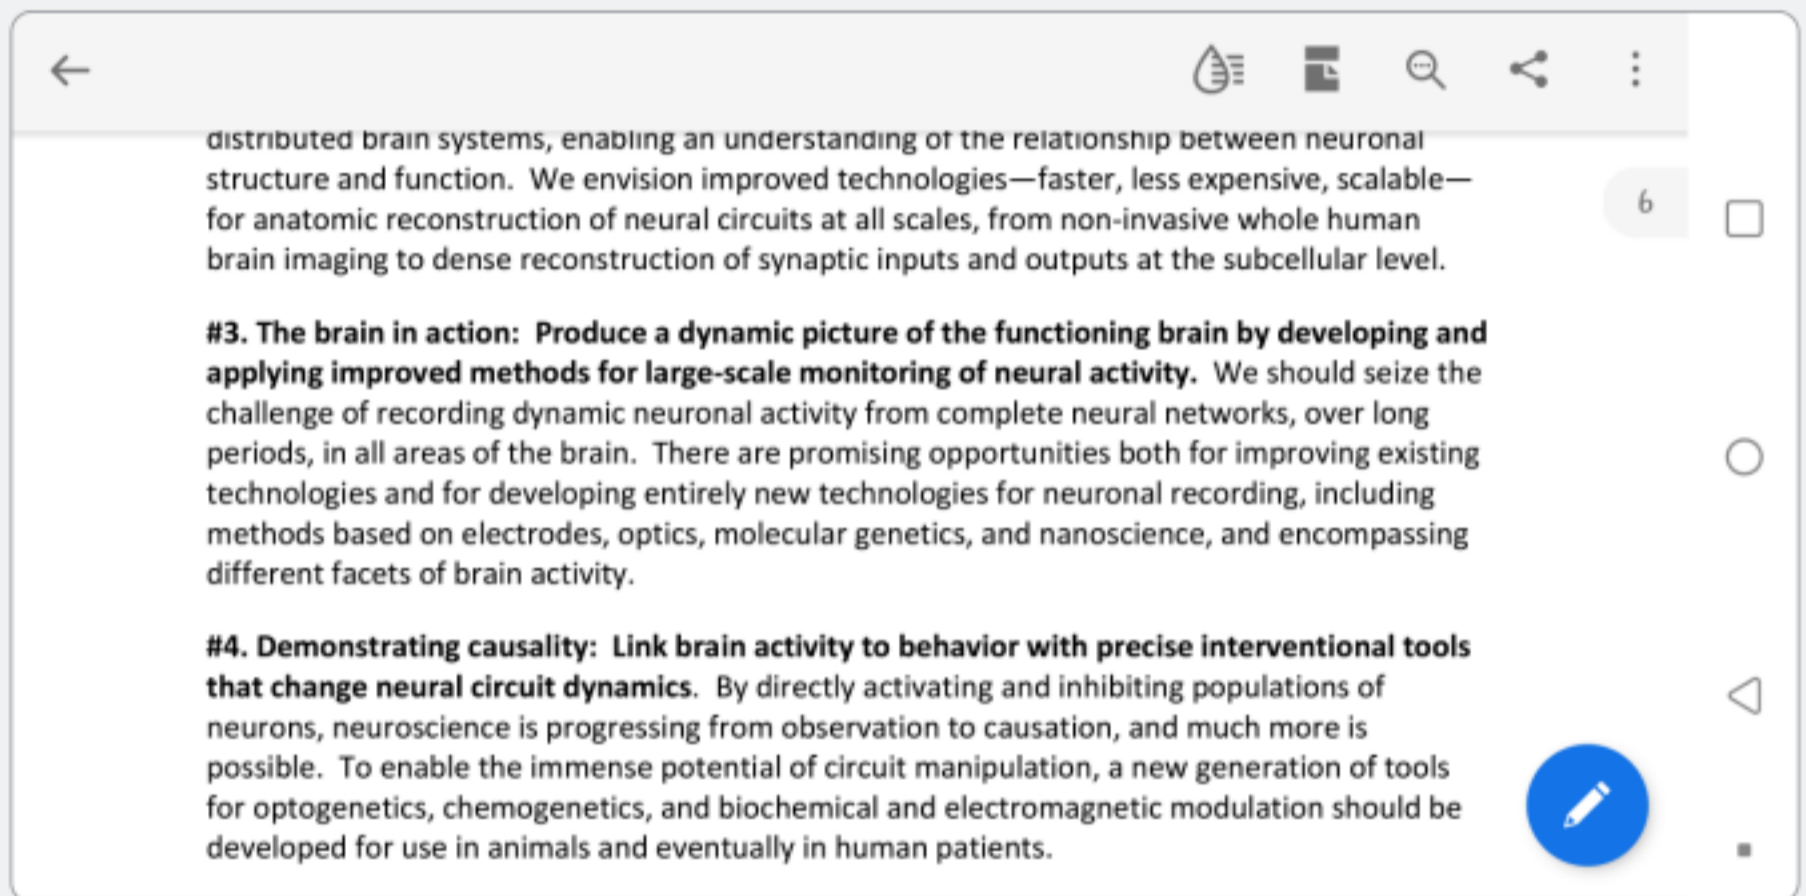

Although only one Blivit can exist at a time, it is not *Unique*. Any other player can play a new Blivit, and the old one is destroyed and discarded. If it has just used its action, that action is canceled.

I can prove it in real life, too each and every one of you.

The announcement of The BRAIN Initiative® by President Obama proposed partnerships between private and public organizations committed to brain research.

Communication between the NIH, NSF, DARPA, and the FDA, communication between private and public partners in the US, and international communication are highly desirable at all stages of The BRAIN Initiative®. The brain is too complex to be solved by individual organizations.

During the planning process, the working group consulted all partners in the original White House announcement and considered their research agendas carefully. For example, efforts to characterize cell types and connectivity in specific organisms and brain regions are ongoing at the Allen Institute for Brain Science¹⁻³ and HHMI's Janelia Farm Research Campus^{4,5}.

Inasmuch as the results of these private efforts are made available to the broader community, The BRAIN Initiative® will

I know it's a bunch of gibberish to most people, but they're talking about TOTAL MIND/BODY CONTROL. I included the link in my screenshot, that's proof of "the brain initiative" being a high level government project. The organizations involved in "the brain initiative" are the ones telling us to follow science.

If you can't grasp what I'm trying to say, try showing this to someone that's been fully shot. I looked up 2020 covid deaths, then current deaths, then combined both pictures.

In 2020, 350k died from covid.

In the last 30 days covid deaths have reached double that number.

I shared this on FB, and people were commenting about not being able to see an increase of death.
