Most known mobsters are low level and most known mafia bosses have higher level bosses which don't get their hands dirty and are more like covert overseers and these higher level bosses are often wealthy Italian businessmen involved with restaurants, bars, car dealerships, law firms, and banking. These high level mafia overseers are often legitimately worth tens of millions or up to hundreds of millions but are never worth billions to keep attention off of them. There are at least tens of thousands of members of the Italian Mafia inside the United States. The mafia is massive. Trump was Roman Catholic Jesuit educated at Fordham and he is friends with the Roman Gaetanis a papal nobility. The Trumps can be seen with the Bourbon-Two Sicilies and Colonnas also Italian-Papal nobility and royalty. Trump also has deep connections with the Italian Mafia. Trump "killing" Soleimani is staged for world war propaganda. Either Soleimani is still alive or more than likely previously died in a way that was unrelated to "Trump killing Soleimani" while Trump is actually bombing civilians in Iraq. If Trump attempts to start a world war with Iran which will cause Russia and then China to be involved then he needs to be executed. All the nations leaders work together under Rome and they engineer wars as a disguise for depopulating society.
